

ANN WANJIKU

SOFTWARE DEVELOPER

Profile

Throughout my career as a software developer I've focused on developing scaleable and well documented code. I enjoy working collaboratively but can also run with projects on my own. Excited about the prospect of joining a product-driven company

EXPERIENCE

FULLSTACK SOFTWARE DEVELOPER

Freelance Fullstack Developer

2021 - Present

- Worked with other developers to build a ticket management dashboard with ReactJS used by over 15 malls across Kenya
- Developed in-house web app using Node, React, and HTML/CSS
- Built RESTful APIs that served data to the JavaScript front-end based on dynamic user inputs that handled over 500,000 concurrent users
- Acquired and ingested data to build and maintain data pipelines that led to discovering an opportunity for a new site features
- Collaborated with an agile team of 5, and helped prioritize and scope feature requests to ensure that the biggest impact features were prioritized
- Attended 50+ weekly stand-up meetings to receive tasks and instruction for weekly goals

PROJECTS

CAHLESS PARKING PAYMENT SOLUTIONS USING QR

04/2022 - Present

- Contributed to the building of ticket management multi-platform dashboard, that uses QR code and is used on app

TENDER MANAGEMENT SYSTEM

- Collaborated with a dynamic team to develop a multi-platform tendering system that uses RESTful API which allows its users to publish tenders, make proposals as well as award tenders after review.
